

## WOMEN WORKING TO REDUCE H.C.L.

Local Merchants are Expected to Join Nation Wide Reduction.

A vigorous campaign to reduce the high cost of living is being pushed throughout the state under the direction of the state chairman of Women's Activities to reduce the High Cost of Living, Mrs. W. D. Sell of Charleston, and already it is believed the seeds sown are bringing good results. The work in Marion county will be carried on under the direction of Mrs. Waitman H. Conaway chairman of the county. Mrs. Conaway has plans outlined for carrying forward the work. Wednesday at a meeting of the William Hammond chapter of the Daughters of the American Revolution Mrs. Conaway talked concerning her plans and also outlined some ways in which she believed the women of the county could help in this matter. Mrs. Conaway believes that the persistent demand of women for cheaper clothing and food stuffs and the refusal to purchase others will gradually result in the supply meeting the demand. Uniformity of price was also touched upon as a thing to be demanded by the women if good results were to be obtained.

Mrs. Conaway was in receipt of a letter from Mrs. Sell, the state chairman, in which Mrs. Sell asked that Mrs. Conaway secure the cooperation of the merchants in reducing the cost of living and ask them to follow the examples set by John Wanamaker's stores both in New York and Philadelphia and hold reduction sales.

Concerning his matter Mrs. Conaway expressed herself as pleased with the attitude of local merchants who had already many of them advertised reduction sales and she hopes that it may become general with the merchants throughout the county.

Mrs. Sell enclosed the following telegram received from National headquarters in regard to the situation. "Effect Women's Division Activities being felt throughout the country. Now is the time to intensify past splendid efforts. Wanamaker Philadelphia and New York has reduced all stock twenty per cent.

Other merchants follow suit. Wire all local chairmen to see if voluntary reductions cannot be obtained from local merchants thereby cooperating in reducing high cost of living. Signed Edith C. Strauss.

## MONTGOMERY AND

(Continued from page one.)

tacking Judge Morgan. Grosscup, claiming publicly that the race is between himself and Montgomery, is devoting his entire speech while on the stump to an attack against Judge Morgan, while Montgomery, on the stump, is echoing the charges made by the Grosscup supporters against Judge Morgan. Both Montgomery and Grosscup ignore each other in their speeches on the stump and concentrate against Judge Morgan.

Following recent conferences in the capital between Montgomery and one of the Grosscup managers the Republican leaders point to the fact that in certain counties where Grosscup is without support, such as Fayette and Mingo, his close political and personal friends are endeavoring to throw the anti-organization vote to Montgomery.

West Virginia Republican leaders who desire to keep the state safely moored in the Republican column do not believe that Colonel Grosscup has one chance in 100 to be nominated for governor, and to that element of Republican voters who would prefer Grosscup to Montgomery they have demonstrated clearly that a vote for Grosscup is a vote favorable to the Montgomery candidacy. A vote for Morgan among the business element and farmers affiliated with the Republican party, they argue, is the only safe way to defeat Montgomery and the menace to Republican success that Montgomery's nomination would mean.

Grosscup's campaign is not founded on the rock. According to those familiar with the political situation in the state it is largely based on claims which cannot be verified. Except in a few instances the Grosscup claims have been indefinite. His campaign

Hey, Fellers, bring your Maw and Paw. Huckleberry Finn is coming to town.

managers have declined to give names when it came to a question of who was supporting his candidacy and when this rule was broken there have been specific denials.

Some days ago the Grosscup managers sent out a list of names from Mingo county to show that their candidate had some strength in that section. One of those mentioned, Judge L. H. Sampson, in a public letter refuted the claim that he was for Grosscup and announced his support of Judge Morgan. Another, Harry Scherr, wrote to Morgan headquarters that the use of his name was wholly unauthorized. He will vote for Morgan. Senator W. C. Grimes, of Mineral county, whose name was used for Grosscup, advised Morgan headquarters that he had never committed himself to Grosscup. He, too, will vote for Morgan.

Only a week ago in an effort to show some strength in Harrison county, the Grosscup headquarters claimed the support of I. Wade Coffman, Circuit clerk; Lloyd Griffin, sheriff, and Howard M. Gore, prominent in the agricultural life of the state.

This Harrison county trio of Republicans favor the Morgan candidacy and have advised the friends of Judge Morgan that they will support his candidacy.

That an effort has been made to deceive the voters with reference to the Grosscup candidacy is demonstrated

again by the action of the Grosscup management in publishing broadcast an editorial which it was claimed had appeared in the Mingo Republican committing that newspaper to Grosscup. The editorial was a fake and has never appeared in the Mingo newspaper.

The fake endorsements of Grosscup has injured his candidacy and many persons, familiar with the political situation, have been left to wonder if any credence can be given to any of his claims. By many, since it has been shown that his claims are considered only as first aid to Sam Montgomery and the non-partisan league of radicals and exponents of communism behind the Montgomery candidacy.

### Air Power.

An Italian inventor has produced a scheme by which vehicles of wheels and carriages and springs are to be propelled by air. According to the accounts, the scheme is to have huge tanks by the wayside holding vast quantities of compressed air. Locomotives and automobiles and tractors and motorcycles can run alongside and connect their tanks to the mother tank, get a lot of compressed air on board and run to the next stop.

### Explains Sodom and Gomorrah.

Bricks cemented together with dried petroleum have curiously enough, been found in large quantities in Nineveh and Babylon. The oil-bearing and sulphur-impregnated shales of the valley of the Dead sea, which are now being developed, supplied the "brimstone and fire" which destroyed Sodom and Gomorrah.

### Dirt in Streets.

One thousand six hundred wagon loads of mud and dirt are removed daily from the streets of London.

### Achilles' Shield.

In early days some armor must have been very beautiful. Homer describes the famous shield of Achilles, made for him, so the story goes, by Hephaestus, the smith of the mythical inhabitants of Olympus. It was covered with pictures of cities and the people in them, soldiers lurking in ambush, farmers working in their fields, a vineyard, and wild animals. If the shield itself was nearly as beautiful as Homer's description of it, it must have been a wondrous work of art.

### Evidence Stork Had Traveled.

Julia had been over to see the neighbor's new baby and upon her return was asked how she liked it, to which she replied: "Well, mother, it is all right, only the stork must have been a long time on the way with it, for it certainly is awfully tanned."

## OVER-EATING

is the root of nearly all digestive evils. If your digestion is weak or out of kilter, better eat less and use

## KI-MOIDS

the new aid to better digestion. Pleasant to take—effective. Let KI-moids help straighten out your digestive troubles.

## Your complexion tells a story to the world

HOW readily, how confidently, the girl with a fresh, soft, lovely skin meets the eyes of the world! Nothing to conceal! For almost always a clear, radiant complexion is an indication of a buoyant, well-poised nature, healthful living, and fastidious habits.

Nothing so quickly creates an impression of your personality as your skin. Don't let it tell of neglect, or unhygienic habits. Even if through the wrong kind of treatment your complexion has lost the smoothness and freshness it should have—if it has become pale and sallow—disfigured by blemishes or little blackheads—you can give it back the color and clearness that make other girls' complexions so attractive.

For your skin is constantly changing—it changes every day in spite of you. Each day old skin dies and new skin takes its place. This new skin, if given the care in particular need demands, will respond instantly and gratifyingly.

### Blackheads are a confession

Perhaps you feel at a disadvantage in meeting people because your skin is constantly marred by disfiguring blackheads. Blackheads are a confession that you are using the wrong kind of cleansing for your type of skin. To keep your skin free from this trouble, try using every night this special treatment:

Apply hot douches to the face until the skin is reddened. Then with a rough washcloth, work up a heavy lather of Woodbury's Facial Soap and rub it into the pores thoroughly—always with an upward and outward motion. Rinse with clear hot water, then with cold—the colder the better. If possible, rub your face for thirty seconds with a lump of ice. Dry carefully. To remove the blackheads already formed, substitute a flesh brush for the washcloth in the treatment given above. Then protect the fingers with a handkerchief and press out the blackheads.

The very first time you use this treatment, it will leave your skin with a slightly drawn, tight feeling. This only means that your skin is responding to a more thorough and stimulating kind of cleansing than it has been accustomed to. After a few nights this drawn

sensation will disappear and your skin will emerge from its nightly treatment with such a soft, clean, healthful feeling that you will never again want to use any other method of cleansing your face. Use the treatment regularly, and in a few weeks you will be surprised to see how your skin has improved—how much clearer, more attractive it has become.

Special treatments for each different skin need—for blemishes—coarse texture—conspicuous nose pores, etc.—are given in the famous booklet of treatments that is wrapped around every cake of Woodbury's Facial Soap. Get a cake today—begin your treatment tonight.

Woodbury's Facial Soap is on sale at any drug store or toilet goods counter in the United States or Canada. A 25 cent cake lasts for a month or six weeks of any treatment, or for general cleansing use.

### Would you like to have a trial size cake?

For six cents we will send you a trial size cake (enough for a week of any Woodbury facial treatment), together with the booklet of treatments, "A Skin You Love to Touch." Or for fifteen cents, we will send you the treatment booklet and samples of Woodbury's Facial Soap, Facial Powder, Facial Cream and Cold Cream. Address The Andrew Jergens Co., Spring Grove Ave., Cincinnati, Ohio.

If you live in Canada, address The Andrew Jergens Co., Limited, Sherbrooke Street, Perth, Ontario.

You can keep your skin free from blackheads by using, every night, the special Woodbury treatment given on this page.

## What Bacterial Infection Means To Your Teeth

FIRST—Bacteria clinging to the surface of the tooth form a field for the germs to feed upon.

SECOND—These germs grow and multiply and before long work their way into the enamel of the teeth.

THIRD—After penetrating the enamel of the tooth it is only a short time until a dark spot appears and the tooth is undergoing destruction known as decay. CONSULT YOUR DENTIST.

FOURTH—This decay will continue and before long the teeth will become sensitive to sweet or cold. BY ALL MEANS CONSULT YOUR DENTIST.

FIFTH—If you continue to neglect the warning of a sensitive tooth it will only be a short time until you are compelled to visit a dentist.

## What a Dentist Will Tell You

FIRST—If you had used your tooth brush regularly you probably would not have this trouble now.

SECOND—By the use of EODENE TOOTH PASTE you could have prevented bacterial infection of the teeth.

THIRD—After having your teeth attended to always use EODENE TOOTH PASTE. Eodene Tooth Paste contains neither pumice stone nor cuttle fish, both of which are injurious to the teeth. It contains certain chemicals which exert beneficial influence upon the surfaces of the teeth that are otherwise impossible to reach with the brush. Eodene Tooth Paste contains carlsbad salt which removes tartar from the teeth.

## PYORRHEA

Tartar and other deposits on the teeth will cause an irritation to the gums and before long you will develop Pyorrhea. In Pyorrhea the gums first become slightly irritated and bleed easily when disturbed. Later on the gums become swollen and boggy and bleed still more. Then the gums start to shrink from around the necks of the teeth and start to expose the root of the tooth. As the disease advances the gums discharge pus which in turn is swallowed and goes into the entire system of the individual which latter on undermines the health.

## Don't You Know

By the use of EODENE TOOTH PASTE the gums will become hard and firm and you will soon notice the improvement in your mouth. Stop that decay. Decayed teeth are now unpardonable as Eodene Tooth Paste will retard decay, prevent decay and destroy the germs which start decay.

## Every One Can Now Have Beautiful Teeth

Eodene Tooth Paste contains Sodium Parborate which when brought in contact with the sylvia of the teeth gives off an acent oxygen bleaching and whitening the teeth.

## SATISFACTION GUARANTEED

If after using Eodene Tooth Paste you are not better satisfied with it than any tooth paste you have ever used then take it back to the druggist and he will gladly refund your money.
